COTTAGELINK RENTAL MANAGEMENT

YOUR GUIDE TO STARTING YOUR VACATION THE RIGHT WAY

The Ultimate Cottage Packing List

In general when you rent a vacation home or cottage you can expect that the kitchen will be equipped with small appliances, such as a coffee maker, kettle, toaster, blender etc. Some will have additional appliances however if you need any specialist equipment for your cottage cooking, it's a good idea to bring your own.

You should expect to find toilet paper, kitchen paper, coffee filters, foil, garbage bags, handsoap and dish soap, however to be on the safe side, you might want to pack all of these anyway.

Some properties will have a good range of herbs and spices, along with oil and vinegar, but again, if there is anything you specifically need, take it along with you. Cottage country general stores can be surprising in what they stock, but if you need some saffron or avocado oil, it's a good idea to pack them.

Similarly, many cottages provide books, games and DVDs and you'll have a huge amount of fun reacquainting yourself with the board games you remember from childhood, but don't expect them.

The following list is generic and covers just about everything you'll need to make your cottage vacation an effortless and comfortable experience.
